To Principal SPIT,

I am Nikhil Sudhir Phadke from SYMCA, at the beginning of the semester we had to enroll in courses from Swayam (NPTEL) for which I missed the deadline. I tried to register for other courses on Swayam website which had similar domain which had their registration open but there were no such courses. This is my last semester of MCA and the onboarding for my company will start in January so I can't wait another semester to enroll in those courses. I had a discussion regarding this with Rajendra Sutar sir and Pooja Roundale Mam, at first, I was suggested to enroll into ongoing open elective courses in our college but from the discussion which I had with Rao sir I came to know that I can't register in ongoing college open elective courses as we have regular assessments and half of the syllabus and assessments were done. I was suggested to get approval of HOD and then Rao sir to do ~~an~~ certification of courses which had similar domain from coursera. I have enrolled in courses of similar domain and will complete certification before this semester ends.
